Subject: Stop T6-D59

I don't think that it's a good idea to irradiate food. On top of that, I don't think that this is the best location to do such a thing. It is too near a large population, tourists, a military base, and harbors. I understand that export is important to the economy, but this is not the business any responsible food producer should be in, neither is this the location for a potentially hazardous facility.

Please accept this email as my personal comment. Please stop T6-D59.

best,
