2

I am against the re-licensing of Pilgrim in 2008. I believe that Pilgrim and the cancer rates in the region are related. I believe the high levels of mercury in my body are related to Pilgrim. I believe there will be more investment in Plymouth, if Pilgrim is stopped. Presently, and for decades, Pilgrim has been a dark shadow of legitimate concern in the region. Everyone knows in his/her heart that Pilgrim is the wrong energy choice for our future.

Thank you,
Rebecca S. Hall

Formerly of 121 West Long Pond Rd. in Plymouth. Now of 630 Francisco Vigil Lane in Taos, New Mexico. One reason I left Plymouth was because of the health and safety fears around Pilgrim.
