James M. Shuler
Manager, Packaging Certification Program
Safety Management and Operations
Office of Environmental Management
Department of Energy
Washington, DC 20585

SUBJECT: AMENDMENT OF CERTIFICATE OF COMPLIANCE NO. 9315 -
INFORMATION LETTER

Dear Dr. Shuler:

By letter dated January 31, 2007, the U.S. Department of Energy (DOE) submitted an application requesting an amendment to Certificate of Compliance (CoC) No. 9315 for the Model No. ES-3100 package. The letter articulated several changes to the current authorizations in this CoC, some of which may be tied to the DOE NNSA Foreign Research Reactor (FRR) Program. The distinctions were not identified in the letter.

I am requesting that you submit a letter defining two revision requests that divides the list of certificate changes, one for the FRR program and one for other changes. Please have the letter state the specific need for any expedited review and need dates. Also, please provide the implications of the need dates not being met. We need this letter as soon as possible so that we can schedule these reviews and assign necessary resources. We need to prioritize projects prior to committing to a schedule.

Please reference Docket No. 71-9315 and TAC No. L24057 in any future correspondence related to this licensing action. If you have any questions regarding this matter, you may contact me at (301) 415-8500.

Sincerely,

/RA/

Kimberly J. Hardin, Project Manager
Licensing Branch
Division of Spent Fuel Storage and Transportation
Office of Nuclear Material Safety
and Safeguards

Docket No. 71-9315
TAC No. L24057
