SUBJECT: LICENSE AMENDMENT AND NOTIFICATION PER 10 CFR 35.14(a)(1)

Please find enclosed Amendment No. 35 to NRC License No. 11-27312-01, **authorizing Dr. Michael J. Citrone for 35.100 and 35.200 modalities and the use of gadolinium-153 under 10 CFR 35.500 uses.**

Please note that we are unable to authorize Dr. Michael J. Citrone for 10 CFR 35.300 materials at this time. The training and experience statement from Tripler Army Medical Center, Honolulu, Hawaii was sufficient to meet the training and experience requirements under 10 CFR 35.390(a); §35.390(b)(i) and (ii); except it did not describe the case work as specified in §35.390(b)(1)(ii)(G). To demonstrate that Dr. Citrone has sufficient case work, please submit the attached NRC Form 313A (AUT) and complete Part I, Section 3.c. for the respective case work; and Part II, *Preceptor Attestation*. The case work and attestation may be documented based on either Dr. Citrone's: (1) residency at Tripler Army Medical Center, or (2) activities under the supervision of an Authorized User at St. Luke's Regional Medical Center.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14)(iv). You should review the enclosed document carefully and be sure that you understand all conditions. If you have any questions, please contact me at 817-276-6552.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at:
