Subject: Permit for another nuclear power plant

Dominion Virginia Power should be denied a permit to build a new nuclear plant.

There is no satisfactory way to dispose of radioactive waste, which is of course harzardous material..

Radioactive waste in the hands of terrorists is a double hazard.

An accident at a nuclear power plant is not just an accident, it can quickly become a catastrophe.

Is any company going to issue insurance to Dominion for full coverage of a nuclear accident?

Building a nuclear power plant is extremely expensive.

Dominion could build windmills for less.

Dominion could burn a great deal of natural gas for what it will cost to build a nuclear power plant.

Building a nuclear power plant is not a good answer to global warming. A nuclear accident could cause more heat than carbon dioxide.
