My name is Lorraine Medina, I've lived in Hawaii for 40 years.

I read the EA and support the NRC's overall conclusion (FONSI)

I'm concerned that Hawaii's farmers are being held down by a bottleneck that limits access to mainland markets because they don't have an effective means to treat their produce AND ..

less ability to sell larger quantities of produce means less local produce for Hawaii.

I'm concerned about Hawaii's lack of food security with 90% of our food being imported especially with rising shipping costs.

I'm concerned that Hawaii's agricultural land and open space will be consumed by development if we can't find ways to strengthen our agricultural sector.

I'm concerned about Hawaii's need for a stronger more diversified economy.

I'm concerned that Hawaii's ecology and quality of life will continue to be threatened because we do not have an effective and comprehensive way to protect against invasive species.

I'm concerned that we will become distracted from solutions to these problems if we become paralyzed with fear about terrorist acts.

I want to find solutions to our environmental problems.

I believe the food irradiator presents a solution to the problems I've addressed.

That's why I support the findings of the EA and ask the NRC to issue the license.

Lorraine Medina, MPH
