Re: RIN 3150-AG63 - Power Reactor Security Requirements;
Request for extension of comment period

Dear Secretary Vietti-Cook:

The New York State Attorney General's Office respectfully requests that the Nuclear Regulatory Commission postpone the date for filing comments in the Power Reactor Security Requirements proceeding from the current deadline of February 23, 2007 until an appropriate date following a public meeting on the regulation changes proposed in this proceeding.

This requested is based on the postponement of the public meeting originally scheduled at NRC headquarters for February 14, 2007, and on the previous grant of an industry request for a 60-day extension of the comment due date.

Postponement of the comment due date is appropriate so that the public may be informed by the information and discussion during a public meeting on this rule-making. Conducting a public meeting after comments are due would contribute nothing to the quality of those comments and is inconsistent with the purpose of such public meetings.

Thank you for your attention and consideration. Please contact me if there are any questions.

Very truly yours,
