

February 26, 2007

MEMORANDUM TO: Farouk Eltawila, Director
Division of Risk Assessment & Special Projects
Office of Nuclear Regulatory Research

FROM: Jack Foster, Chief /RA/
Operating Experience and Generic Issues Branch
Division of Risk Assessment & Special Projects
Office of Nuclear Regulatory Research

SUBJECT: GENERIC ISSUE MANAGEMENT CONTROL SYSTEM (GIMCS)
REPORT – FIRST QUARTER FY 2007

The GIMCS Report for the First Quarter of FY 2007 is enclosed for your information. Progress in resolving the open generic issues (GIs) during the reporting period is summarized below. Future GIMCS reports will support changes to the generic issues program that were delineated in SECY-07-0022 (ML063460239).

REACTOR GIs

GI-156.6.1, Pipe Break Effects on Systems and Components: The review of piping configurations to identify the most vulnerable plants was completed in October 2006. A potential vulnerability was found at only one site. Under this circumstance, the concern was site-specific rather than generic and the issue will be closed on this basis.

GI-196, Boral Degradation: The staff discussed its technical assessment of the GI with the Advisory Committee on Nuclear Waste (ACNW) during the 175th ACNW meeting from December 12-14, 2006. The ACNW had no objection to the staff's proposal to close the issue with no new requirements for licensees. In addition, the ACNW requested to be kept informed of any future development in the area of Boral blistering and its continued effectiveness as a neutron absorber, including the results from the International Atomic Energy (IAEA) effort on the Spent Fuel Performance Assessment and Research currently underway. The issue is scheduled to be closed in February 2007 with a memorandum to the Executive Director for Operations (EDO).

GI-200, Tin Whiskers: The initial screening of this GI was reviewed by a panel on November 29, 2006, who recommended that the issue be dropped from further pursuit. The panel's report was later approved on January 26, 2007, by the RES Director.

CONTACT: Christine Antonescu, RES:DRASP:OERA
(301) 415-6792

At the end of the reporting period, twelve reactor GIs remained to be resolved: four GIs that were transferred from RES to NRR for regulation and guidance development (see Table 1), three GIs that are undergoing technical assessment in RES (see Table 1), and five GIs that are in various stages of initial screening in RES (see Table 9).

NON-REACTOR GIs

NMSS-0016, Adequacy of 0.05 Weight Percent Limit in Part 40: This GI was closed with a memorandum to the EDO on November 27, 2006 (ML062000507). No new requirements or guidance were issued.

At the end of the reporting period, two non-reactor GIs remained to be resolved (see Table 14).

I will continue to keep you informed of progress in resolving the remaining unresolved reactor and non-reactor GIs as well as any major problems that might surface during the course of their resolution.

Enclosure: GIMCS Report, February 2007

At the end of the reporting period, twelve reactor GIs remained to be resolved: four GIs that were transferred from RES to NRR for regulation and guidance development (see Table 1), three GIs that are undergoing technical assessment in RES (see Table 1), and five GIs that are in various stages of initial screening in RES (see Table 9).

NON-REACTOR GIs

NMSS-0016, Adequacy of 0.05 Weight Percent Limit in Part 40: This GI was closed with a memorandum to the EDO on November 27, 2006 (ML062000507). No new requirements or guidance were issued.

At the end of the reporting period, two non-reactor GIs remained to be resolved (see Table 14).

I will continue to keep you informed of progress in resolving the remaining unresolved reactor and non-reactor GIs as well as any major problems that might surface during the course of their resolution.

GENERIC ISSUE MANAGEMENT CONTROL SYSTEM

DESCRIPTION

The Generic Issue Management Control System (GIMCS) provides information necessary to manage the resolution of generic safety issues (GSIs) as well as non-safety-related generic issues. GSIs have the potential for safety enhancements and the promulgation of new or revised requirements or guidance.

GIMCS is part of an integrated system of reports and procedures that is designed to manage GSIs through the stages of prioritization/screening and resolution (development of new criteria, management review and approval, public comments, and incorporation into the regulations, as appropriate). The priority evaluation of each issue listed as HIGH- or MEDIUM-priority in this report is contained in NUREG-0933, "A Prioritization of Generic Safety Issues."

For reactor issues, the "Procedures for Processing Generic Issues" are outlined in RES Office Instruction TEC-002, dated September 29, 2005. The procedures for processing non-reactor issues are documented in NMSS Policy and Procedures Letter 1-57, Revision 1, "NMSS Generic Issues Program," dated October 1997. In 1999, Management Directive (MD) 6.4, "Generic Issues Program," was initiated for the processing of all new GSIs; MD 6.4 was revised on July 29, 2005.

GIMCS provides the proposed schedules for managing the resolution of: (1) GSIs that have HIGH- or MEDIUM-priority designations, as determined by the procedures of NUREG-0933 and NMSS Policy and Procedures Letter 1-57; and (2) other issues designated as CONTINUE, as determined by the screening procedures of MD 6.4. Reactor GSIs ranked as either LOW or DROP are not allocated resources for resolution and, therefore, are not tracked in GIMCS.

LEGEND

DATA ELEMENTS

Management and control indicators used in GIMCS are defined as follows:

- | | | |
|-----|-------------------------------|--|
| 1. | <u>Issue No.</u> | Generic Issue Number |
| 2. | <u>Title</u> | Generic Issue Title |
| 3. | <u>Identification Date</u> | Date the issue was identified |
| 4. | <u>Prioritization Date</u> | The date that the prioritization evaluation was approved by the RES Director |
| 5. | <u>Type</u> | Generic Safety (GSI) |
| 6. | <u>Priority</u> | High (H), Medium (M), or Continue |
| 7. | <u>Task Manager</u> | Name of assigned individual responsible for resolution |
| 8. | <u>Office/Division/Branch</u> | The Office, Division, and Branch of the Task Manager who has lead responsibility for resolving the issue |
| 9. | <u>Action Level</u> | <p><u>Active</u> Technical assistance funds appropriated for resolution and/or Task Manager actively pursuing resolution</p> <p><u>Inactive</u> No technical assistance funds appropriated for resolution, Task Manager assigned to more important work, or no Task Manager assigned</p> <p><u>Resolved</u> All necessary work has been completed and no additional resources will be expended</p> |
| 10. | <u>Status</u> | <p>Coded summary as follows:</p> <p>3A - (Resolved with requirements)</p> <p>3B - (Resolved with No requirements)</p> |
| 11. | <u>TAC Number</u> | Task Action Control (TAC) number assigned to the issue |
| 12. | <u>Resolution Date</u> | Scheduled resolution date for the issue |
| 13. | <u>Work Authorization</u> | Who or what authorized work to be done on the issue |

DATA ELEMENTS (cont.)

- | | | |
|-----|---------------------------|--|
| 14. | <u>FIN</u> | Financial identification number assigned to contract (if any) for technical assistance |
| 15. | <u>Contractor</u> | Contractor name |
| 16. | <u>Contract Title</u> | Contract Title (if contract issue) |
| 17. | <u>Work Scope</u> | Describes briefly the work necessary to technically resolve and complete the generic issue |
| 18. | <u>Status</u> | Describes current status of work |
| 19. | <u>Affected Documents</u> | Identifies documents into which the technical resolution will be incorporated |
| 20. | <u>Problem/Resolution</u> | Identifies problem areas and describes what actions are necessary to resolve them |
| 21. | <u>Milestones</u> | Selected significant milestones: |
| | <u>Original</u> | Scheduled dates reflected in the original Task Action Plan, plus additional milestone dates added during resolution of the GSI |
| | <u>Current</u> | Expected date of completion, or changes in the original scheduled dates |
| | <u>Actual</u> | The date the milestone was completed |

2. Extensive revisions to Human Factors issues resulted in priority changes in FY-85 and FY-86.

** GSIs Integrated

FY-87 (13):

Issues 48, 49, and A-30 into Issue 128
 Issue 65 into Issue 23
 Issues 68; 122.1.a; 122.1.b; 122.1.c; and 125.II.1.b into Issue 124
 Issues I.B.1.1(6) and I.B.1.1(7) into Issue 75
 Issue B-6 into Issue 119.1
 Issue 67.7 into 135

FY-88 (6):

Issue 77 into A-17
 Issues I.D.5(5), II.B.5(1), II.B.5(2), II.B.5(3), and II.F.5 were integrated into the Research Activities Program and were reclassified as Licensing Issues.

FY-89 (1):

Issue 131 was integrated into the IPEEE Program.
