Dear Dr. Friedman:

According to a letter I received from John D. Kinneman, dated March 30, 1988, regarding the Shieldalloy facility at Newfield, New Jersey, Oak Ridge Associated Universities was at that time in the process of analyzing the samples and data they'd collected during their field inspection on October 19, 1987. Would you please tell me if the ORAU report is now available and if so how to obtain a copy -- or if easier for you, would you please forward this letter to the appropriate agency?

I would be happy to pay for photocopying and postage.

Sincerely,

*Kay Drey*
