The Honorable Dale E. Klein
Chairman
U. S. Nuclear Regulatory Commission
Mail Stop O-16 C1
Washington, DC 20555-0001

Subject: NRC Safeguards Request

Dear Chairman Klein:

I am requesting that the Nuclear Regulatory Commission authorize the Electric Power Research Institute (EPRI) to control safeguards information under 10CFR Part 73. Authorization is needed for EPRI to better assist the industry in analyzing security risks and in developing generic responses to the various security initiatives and regulations issued by the Commission.

Currently, individual EPRI employees have been given safeguard clearance by licensees to read safeguards materials. The licensees provide training, background checks, and document control for these EPRI employees. However EPRI cannot currently store safeguards materials on-site for the purpose of future use and analysis. This arrangement is considered a temporary solution until NRC authorizes EPRI to handle and store safeguards information.

We are prepared to implement the necessary program as soon as authorization is received from the NRC. I would appreciate your assistance in expediting this authorization. Please call me if you would like to discuss this further, or have your staff contact Richard Oehlberg, EPRI Manager of Quality Assurance, at (650) 855-2082.

Sincerely,

DJM/tw
