SUBJECT: **Reply to RAI regarding Revised Test Plan for  
Indian Point Emergency Notification System for NRC Order EA-05-190**

REFERENCES: 1. Entergy letter (NL-06-126) regarding proposed revision to Test Plan for Indian Point Emergency Notification System, dated December 20, 2006.

2. NRC letter to Entergy regarding Confirmatory Order EA-05-190 for the Indian Point Emergency Notification System, dated January 31, 2006.

Dear Sir or Madam:

Entergy Nuclear Operations, Inc (Entergy) requested, in Reference 1, NRC approval of a proposed revision to the test plan required by Section IV.II.C.3 of NRC Order EA-05-190 (Reference 2). In follow up discussions with NRC staff, Entergy was requested to provide additional information regarding the opinion of the emergency planning officials in the four-county region on the proposed change.

Entergy discussed the proposed change with county officials and three of the four affected counties had no objection to the proposed change. The fourth county indicated that they did not have adequate technical expertise on the subject to provide either a concurrence or an objection.

AX45

This RAI reply does not result in any changes to the proposed new test plan transmitted in Reference 1 and there are no new commitments identified in this submittal. If you have any questions or require additional information, please contact me at 914-734-6668.

Sincerely,

A handwritten signature in black ink, appearing to read "Patric W. Conroy". The signature is fluid and cursive, with the first name "Patric" and last name "Conroy" clearly distinguishable.
