We have the following comment on GE's response to RAI 16.2-53 which was contained in GE letter MFN 06-431:

Comment on response to RAI 16.2-53: The proposed justification for extending the Surveillance Requirement frequency from 31 days to 92 days was to leave the bracketed 92 days in the DCD and add a reviewers note requesting justification for 92 days in the Bases. Defense in depth warrants that 31 days be the bracketed value in the DCD and the requirement for justifying 92 days be placed in the Bases Note.

Please contact me if you have any questions or would like to arrange a telephone conference to discuss this comment.

Thanks, Larry
