Mr. Bill Bradley
1 Newark Center
Newark, NJ 07102

Dear Mr. Bill Bradley:

Our local newspapers, including Philadelphia Inquirer, eloquently express fear and frustration of anticipated disaster, which is inevitable if Shieldalloy Corporation is permitted to continue to dispose their nuclear waste.

As a new and disappointed residents of Newfield, our fear and frustration is greater, because we were not aware of existence and activities of Shieldalloy Corporation, before moving in. We feel however that intervention by U.S. Nuclear Regulatory Commission or other Government Authority having jurisdiction over the case is necessary.

We are requesting therefore that you undertake appropriate steps, in accordance with democratic principles of : "Government of the People, by the People, for the People," to protect properties and population of our community against imminent disaster.

Thank you for your cooperation.

Sincerely,

Barbara Marcyniuk
