

Mr. C. Scott Eves August 8, 1995  
 Vice President, Environmental Services  
 Shieldalloy Metallurgical Corporation  
 12 West Boulevard  
 P.O. Box 768  
 Newfield, New Jersey 08344

SUBJECT: REQUEST FOR ADDITIONAL INFORMATION FOR SAFETY EVALUATION REPORT FOR  
 LICENSE RENEWAL APPLICATION (TAC NO. L21474)

Dear Mr. Eves:

I have reviewed your letter dated July 21, 1995, requesting an extension to September 1, 1995, of your responses to my request for additional information (RAI). Your letter also notified me of your intent to submit a revision to your application in its entirety as part of the submittal with the RAI.

As we discussed by telephone on July 29, 1995, your request for the extension of your submittal date is acceptable. As such, you should submit your response to my RAI no later than September 1, 1995. As I also suggested during our conversation, you should schedule a meeting or telephone conference with me for no later than August 18, 1995, to discuss your responses. This will ensure that the information which you submit is complete.

I appreciate your decision to provide NRC with an updated license application. It is important to note that your revised application will likely become a condition of your license. Therefore, your revised application should include much of the information requested in the RAI, as well as the information provided in the previous revision of your application.

If you have any questions or would like to schedule a meeting, please call me at (301) 415-8106.

Sincerely,

Original signed by:
