Telephone conversation with Lynn Wiabel (LW) on 2/20/07

The reviewer spoke to LW concerning their move. LW requested that this amendment request be expedited since they will be moving their RAM to the new facility 3 blocks from their old facility. LW stated that a closeout survey would be performed at the old facility prior to releasing it for unrestricted use. The reviewer will give LW verbal permission to move since there is not enough time to mail or fax this amendment to the licensee. As permitted by the MLB Branch Chief on 2/20/07, the reviewer spoke to LW and gave verbal authorization to move their RAM to the new location of use.
