Docket No. 030-32676
Control No. 116156

April 22, 1992

Dear Ms. Joustra,

This is in response to your letter dated March 25, 1992 regarding my Byproduct Material License Application.

1. Enclosed is a letter from Dr. Lawrence Swayne confirming my continuing involvement in Nuclear Medicine since my training in 1983 to the present.
2. Nuclear Medicine Technologists and ancillary personnel whose duties may require them to work in the vicinity of radioactive materials (housekeeping, nursing, clerical, and security) will be given a radiation safety in-service by our physics consultant prior to employment and on an annual basis. This will consist of lectures, demonstrations, and/or videotapes. We will establish and implement the model training program that was published in Appendix A to Regulatory Guide 10.8, Revision 2, and have appended a table ATT 8.1 that identifies the groups of workers who will receive training and the method and frequency of training.
3.
 - a) We will **not** be use xenon gas.
 - b) We may occasionally use multidose vials. We will establish and implement the model procedure for a multidose vial record system that was published in Appendix M.2 to Regulatory Guide 10.8, Revision 2.
