SUBJECT: DOVER CARDIOLOGY CENTER, INSPECTION AMENDMENT REQUEST

Dear Dr. Douedi:

We have reviewed your request to change the licensee's name on 03036688/2005001 inspection documented on NRC Form 591M Part 1. We have found that at the time of inspection, the licensee's name was Dover Cardiac Diagnostic Center, LLC and the form is accurate at the time of inspection. Accurate inspection documentation is not to be amended as the inspection is an observation of the licensee's program at that time.

This licensee's name, Dover Cardiac Diagnostic Center, LLC, was requested in a letter dated July 5, 2005 and was amended on the license dated August 29, 2005. The inspection was performed on November 21, 2005. The name of the licensee did not change until the license was amended on December 11, 2006, from an amendment request letter dated October 30, 2006.

You may contact me at 610-337-5366 if you have any further questions about this matter.

Thank you for your cooperation.

Sincerely,

**RE: Amendment Request for Dover Cardiac Diagnostic Center, LLC**  
**US NRC license#: 29-30968-01**  
**Docket Number#: 03036688**

I am requesting an amendment to the above referenced inspection report in order to:

**1. Change the name on the safety inspection report and compliance inspection from:**

**“Dover Cardiac Diagnostic Center”**

**Back to:**

**“Dover Cardiology Center”**

This name change does not in any way constitute a transfer of ownership. It is an administrative name change for business purposes only. I continue to be the owner of the practice, and will continue to be the official contact, the authorized user, and the Radiation Safety Officer for this license. All other aspects of the program will remain the same. We have concurrently submitted a similar request to the State of New Jersey, Bureau of Environmental Radiation, licensing assistance office in order to duplicate this change on our State license, as well. If you have any questions or need any additional information please contact me at your convenience at (732)557-4777.

Sincerely,

Hani Douedi, M.D./R.S.O.

**LICENSEE:**

The inspection was an examination of the activities conducted under your license as they relate to radiation safety and to compliance with the Nuclear Regulatory Commission (NRC) rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector. The inspection findings are as follows:

1. Based on the inspection findings, no violations were identified.

2. Previous violation(s) closed.

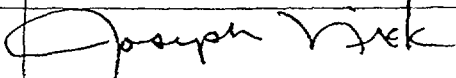

3. The violation(s), specifically described to you by the inspector as non-cited violations, are not being cited because they were self-identified, non-repetitive, and corrective action was or is being taken, and the remaining criteria in the NRC Enforcement Policy, NUREG-1600, to exercise discretion, were satisfied.

Non-Cited Violation(s) was/were discussed involving the following requirement(s) and Corrective Action(s):

4. During this inspection certain of your activities, as described below and/or attached, were in violation of NRC requirements and are being cited. This form is a NOTICE OF VIOLATION, which may be subject to posting in accordance with 10 CFR 19.11.

**Licensee's Statement of Corrective Actions for Item 4, above.**

I hereby state that, within 30 days, the actions described by me to the inspector will be taken to correct the violations identified. This statement of corrective actions is made in accordance with the requirements of 10 CFR 2.201 (corrective steps already taken, corrective steps which will be taken, date when full compliance will be achieved). I understand that no further written response to NRC will be required, unless specifically requested.
