Re: Amendment to NRC License No. SUB-1318

04008649

Dear Sir or Madam:

General Dynamics – OTS (PA), Inc. recently has had a change in personnel who was specified on our NRC License. Mr. Tu Dam, listed as our Radiation Safety Officer on the license, has taken on other responsibilities. Taking his place is Mr. Michael Roberto, our Environmental, Health, Safety and Security (EHS&S) Supervisor. We would like to submit this letter as the Amendment to our current NRC license to appoint Michael Roberto as our Radiation Safety Officer and also to amend Condition 11, Part A and Part B of the license. Michael Roberto has had 10 years of experience in the EHS arena. In the anticipation of being named the facility Radiation Safety Officer, Mr. Roberto has attended the Radiation Safety training in June 2006. Enclosed are his training certifications from the Radiation Safety Academy in Gaithersburg, MD:

- DOT & NRC Requirements for Shipping and Receiving Radioactive Materials Certificate.
- Radiation Safety Officer with DOT Option Certificate
- Dangerous Goods in Transportation DOT/CFR49 Certificate

Condition 11, Part A, currently states, "Licensed material shall be used by, or under the supervision of, Donald Keith Boyce, Tu Dam, or Tom Lynch." We respectfully request that Condition 11, Part A, be changed to read "...under the supervision of, Donald Keith Boyce or Michael Roberto."

Condition 11, Part B, currently states, "The Radiation Safety Officer is Tu Dam." We respectfully request that Condition 11, Part B, be changed to read, "The Radiation Safety Officer is Michael Roberto."

If you have any question regarding this Amendment, please contact Michael Roberto directly at (717)246-8370, fax number is (717)246-8211.

Sincerely,

Martin Paino
Director of Operations
General Dynamics – OTS
