Mr. Sattar Lodhi  
Licensing Assistance Team  
Division of Nuclear Materials Safety  
U.S. Nuclear Regulatory Commission, Region 1  
475 Allendale Road  
King Of Prussia, PA 19406-1415

Dear Sir:

Reference is made to the telephone conversation between you and my Vice President of Field Operations, Joseph J. Fitzpatrick, on February 28, 2007 regarding our application for an NRC Material License.

Per your request the following numbers of gauges will be utilized by our company for field work (see attachment #2, question #6):

Model Number	Number of Gauges
Troxler model number 3440	2
Troxler model number 4640B	2
CPN, MC Series - MC1-DR-P	2

The gauges listed above will be utilized at Fairfax Survey's, Inc. job sites. The gauges will only be stored at the job site for the duration of the job. The storage of these gauges will be in accordance with NRC rules and regulations as stipulated in the application (attachment #5, question #9). At the completion of a job, these gauges will be returned to our permanent Fairfax Survey's, Inc. office location at the above address in Martinsburg, West Virginia for inspection and inventory. These gauges will not be dispatched to a subsequent job site without first returning to our Martinsburg, WV headquarters.

If further documentation is needed, or if you have further questions please contact my Vice President of Field Operations, Joseph J. Fitzpatrick or myself at your earliest convenience. Our 24 hour contact number is (866) 229-0861.

Thank you in advance for your attention to this matter and for you guidance in the application process.

Sincerely yours,

Thomas J. Weamer  
President
