Subject: GE Request for Written Consent to Transfer of Export Licenses (January 25, 2007)

Dear Ms. Lee:

By letter dated January 25, 2007, General Electric Company (GE) requested the NRC's written approval of license amendments with respect to five identified NRC export licenses, pursuant to 10 CFR § 110.50(b)(6). The request was based upon a planned transaction described in GE's "Request for Consent to the Transfer of Control of GE Licenses to GE-Hitachi Nuclear Energy Americas" dated January 19, 2007.

GE has subsequently confirmed that two of the identified licenses – Export License Nos. XSNM03066 and XSNM02948 – were previously transferred from GE to Global Nuclear Fuel-Americas, LLC by NRC license amendments, and are no longer held by GE. Furthermore, the two referenced export licenses (XSNM03066 and XSNM02948) are *unaffected* by the proposed transaction described in GE's January 19, 2007 letter.

Accordingly, since no transfer of these two licenses is required, GE is withdrawing its request for amendments to those two licenses and respectfully requests that the NRC process the January 25, 2007 amendment request only with respect to the remaining three export licenses identified – Export License Nos. XR135, XCOM1019, and XCOM1124.

~~As we have already submitted payment for the processing of five amendments, a refund of the fee for processing the two withdrawn amendment requests (\$640) is hereby also requested.~~

We apologize for any inconvenience. If you have any further questions, please feel free to call me at 910-675-5950.

Sincerely,

Scott P. Murray, Manager
