COMMENTS OR SUGGESTIONS:

Thank you for answering these questions.

The NRC presentation was totally lifeless. The use of the word "generic" to apply to measures used by the NRC to evaluate environmental impact says to me that NRC is using a boiler plate approach to this reactor. I believe you have made up your minds to approve the license extension, and mold the "facts" to fit your decision. At the start of the meeting I held a sign which did not disrupt the proceedings. Yet, when I left to feed the parking meter, a policeman said I could not return because I had disrupted the meeting. This response is

COMMENTS OR SUGGESTIONS: (Continued)

dissect is almost as scary as allowing Entergy to make money from an upgrade to an aged reactor and probably to extend its license.

The NRC is not listening to the public any more than Bush is listening to the public about getting out of Iraq.
