FORT MONMOUTH, NEW JERSEY 07703

IN REPLY REFER TO:  
AMSEL-RD-XS

10 NOV 1964

SUBJECT: Amendment to AEC License No. 29-1022-6 (I65)

TO: Commanding Officer  
U.S. Army Electronics Support Command  
ATTN: SELSC-SA  
Fort Monmouth, New Jersey

1. The following information is submitted in answer to the 9 September 1964 letter from AEC (~~9 copies inclosed~~).

a. The    curies of Cesium 137 will be sealed in a double welded stainless steel capsule described in Oak Ridge National Laboratory drawing #B-RD-1152. Ex. 2

b. The Radiac Calibrator MRC-794 is a modified version of the Radiac Calibrator CDV-794. It is modified in accordance with the letter of 3 July 1962 from H. Kalisman of EON Corps. to AEC in reference to License # 31-8263-1 (C-64) Amendment # 2. Mr. M. Brinkman of AEC handled the amendment application.

2. Inclosed are 9 copies of the Final Report on Contract # OCD-OS-62-101 January 1964 describing the modified CDV-794 as additional information for the AEC.

FOR THE COMMANDER:

ROSS L. McHENRY
