Jim, sorry for the constant correspondence.

It has been suggested by our pharmacist to make a change.

In regards to Moly evaluation,

Page 6 section 2g of our policy and procedure manual

Please change our commitment from "Evaluate each eluate to ensure that it meets NRC regulations"

To

"Evaluate eluate per current NRC regulations"

I will document this change and insert the correspondence into our ongoing dialog regarding our RAM application.

Thank you for your time.

Troy Curnutt, RSO

Advanced Isotopes of Pocatello

4968 Rainbow lane

Chubbuck Idaho 83202

Jim, I forgot to send an attachment that describes the prescription and syringe.

Thanks,

Troy
