Dear Dr. Veenhuis:

Enclosed is Amendment No. 4 amending your NRC Material License No. 21-26080-02 in accordance with your request. Please note that the changes made to your license are printed in **bold** font.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please note, that we have reformatted Subitem Nos. 7 and 9 and Condition No. 12 to remove all references to exclude authorizations such as " xenon-133 ".

Please be reminded, however, that you are still bound by the restrictions imposed by the excluded authorizations contained in documents incorporated into your license by Condition No. 15 in your license.

Please be aware that you since you are the Radiation Safety Officer (RSO) at two hospitals, you must ensure you have sufficient time to perform your duties as the RSO at both hospitals. Please make certain you have sufficient time to spend at each facility to ensure the safe use of radioactive materials at both facilities. Also, please ensure you can be contacted and can respond to an emergency involving radioactive materials when you are not present at Hills and Dales General Hospital.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,
