

VOID SHEET

TO: License Fee Management Branch

FROM: RIII - James R. Mullauer

SUBJECT: VOIDED APPLICATION

Control Number: 315907

Applicant: Saint Joseph's Hospital

License Number: 13-32277-01

Docket Number: 030-35564

Date Voided: 3/2/07

Reason for Void: This request was to change the Radiation Safety Officer (RSO), add a new user and to remove several physicians from the license. The licensee requested that these changes be effective 12/26/06. The reviewer contacted the licensee on 12/26/06 for additional information regarding the change of RSO. The request for additional information was faxed to Susan Pearson, NMT on 1/3/07. Since no response was received as of 2/27/07, the reviewer called Susan to determine the status of their response; however, the reviewer only connected with the licensees' voice mail (VM) and the reviewer left a message to call ASAP. On 3/1/07, the NRC Region III materials licensing Branch Chief contacted the reviewer to inform him that this hospital apparently closed its door due to bankruptcy. After several attempts to contact the licensee to determine the status of their business, it was learned from the Region III Inspection Staff that the licensee did indeed go bankrupt and licensed activities have ceased. Therefore, the Region III Inspection Staff will followup on this case and determine the status of the licensee's inventory regarding licensed material. Based on this information, this licensing action is voided since no further action concerning licensing matters can be taken at this time.
