

UNITED STATES
NUCLEAR REGULATORY COMMISSION

REGION III
2443 WARRENVILLE ROAD, STE 210
LISLE, ILLINOIS 60532-4352

MAR 12 2007

William J. Guerdan
Radiation Safety Officer
SCI Engineering, Inc.
130 Point West Boulevard
St. Charles, MO 63301

Dear Mr. Guerdan:

Enclosed is Amendment No. 15, to your NRC Material License No. 24-20039-01 in accordance with your request. Please note that the changes made to your license are printed in bold font. This amendment also incorporates the total possession limits for each radionuclide listed in your license, which you requested in our telephone conversation on March 8, 2007. This action is in accord with NRC policy, in support of security issues.

We understand that after you have moved all licensed material from your old use/storage location in Rolla, Missouri, to your newly authorized use/storage location in Rolla, Missouri, that you will request a followup amendment to authorize the release for unrestricted use of your old facility in Rolla.

Please review the enclosed documents carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>. A copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

A handwritten signature in cursive script that reads "Loren J. Hueter".

Loren J. Hueter
