Alice,

The final status survey report OOL-08-03 has a Technical Evaluation YA-EVAL-00-002-06 on Sr-90 identified in soil samples, and the evaluation refers to two additional documents that contain information on environmental Sr-90 levels.

Could you provide a copy of the referenced reports: YRC-1178 and RP 98-72? I have checked a CD with YNPS Historical Site Assessment, Master Reference List information, and the CD contains similar reports, but not these specific reports.

John Hickman is on sick leave today, but hopefully will be back at work soon.
