Phone conversation with Joseph Beer (JB) on March 12, 2007

The reviewer spoke to JB to determine if he was aware and agreed to being the RSO of this license. JB stated that he was aware and willing to perform the duties of the RSO. We also discussed the fact that this license authorized 50 portable gauges. JB stated that they only have 4 but asked if the license could authorize 10 for future purchases. Also the new security condition was added to the license.
