Dear Mr. Kraft:

On behalf of the U.S. Nuclear Regulatory Commission and as the panel session chair, I would like to thank you for your participation in the 2007 Regulatory Information Conference last week. Your presentation at the panel session on the Proposed Yucca Mountain Repository was very informative and provided insights into the industry's views toward spent fuel management that were appreciated by all. If an opportunity presents itself next year, I would like to ask you to return to provide an update.

Sincerely,

/RA/
