Information pertaining to the requirement to be submitted:

6. The number of hours needed annually to complete the requirement or request:

One-time event. 277 hours ((completed surveys 800 x .333 hrs per response = 267 hrs) + (uncompleted surveys 120 x .083 hrs per response = 10 hrs)).

7. Abstract: As part of NRC's effort to review and improve emergency response program areas, a telephone survey will be conducted to assess the satisfaction of the public with existing protective action strategies, the effectiveness in which these strategies are conveyed to the public, and the public response to the possibility of modifying protection action strategies. The survey will produce statistical descriptions of customer satisfaction and acceptance of emergency response planning and protective actions. The response to the surveys will be used by the NRC in the development of new or modified protective action strategies including the types of strategies implemented and the means for which the information on protective actions may be disseminated to the public. The response may also support quality improvement in the existing emergency planning information in other areas indirectly related to protective actions.
