Subject: Comment regarding Massachusetts Attorney General's Petition for Rulemaking to Amend 10
CFR Part

I support the Massachusetts Attorney General's petition to the NRC to include the significant
environmental impacts of high-density spent fuel pools at nuclear reactors as part of the relicensing
process.

Living about 6 miles from Vermont Yankee, I am concerned about the plant's spent fuel being vulnerable
to earthquake, criminal or terrorist attack, or leakage that could result in a release of radiation.

Thank you for your consideration.

Sincerely,
William C. Pearson
