 (NOTE: This will be used as the Documents Title in ADAMS)

Summary: Explained to Tom that the NRC would like all portable gauge license renewals submitted in accordance to guidance in NUREG 1556 Vol 1 Rev 1. He should check the boxes in Appendix B and resubmit the pages from Appendix B for the renewal. This will make the renewal easier to process and assure that he has all the required commitments needed for the licence renewal. Took Tom through the steps a nrc.gov to get to NUREG-1556 Vol.1, Rev 1. He will fill out and resubmit. I informed him to give us the Model Nos of the gauges he has and total activity he would like to possess by giving the total number of gauges he may need. He stated he would like 10 Humbolt 5001. Asked him to write this down in the application. Told him we would like the response to this telecon within 30 days.
