Subject: Public Meeting on Vogtle Early Site Permit Seismic Program
cc: "Nitin Patel" <NXP1@nrc.gov>,"George Wunder" <GFW@nrc.gov>

A few months ago I sent out an email requesting that each of you reserve April 14 for a meeting with SNC on the Early Site Permit. I am in the process of issueing the meeting notice. In the mean time, attached is the agenda for the meeting.

Proposed Agenda

Southern Nuclear Operating Company NRC Public Meeting on Vogtle Early Site Permit Seismic Program Overview of Seismic Ground Motion Program

Date: April 14, 2006

Time: 9:00 – 12:00

	Topic	Duration
1.	Introductions	10 min
2.	ESP Site Location Description	10 min
3.	Ground Motion Program Overview	20 min
4.	Geological and Seismological Investigations	20 min
	<p>Geological: Identification of site soil/rock strata type, age, depth, and features including unstable slopes, active faults, underground cavities, and tectonic and no tectonic deformations.</p> <p>Seismological: Identification of seismic sources (seismogenic and capable tectonic sources) and other data that will define the seismic hazard potential of the site.</p>	
5.	Geophysical and Geotechnical Investigations	20 min
	<p>Identification of the engineering characteristics of the site soil/rock such as the static and dynamic soil properties, liquefaction potential, bearing capacity, shear wave velocity, etc.</p>	
6.	Summary of Seismic Hazard for Site	20 min
7.	Determination of SSE ground motion	30 min
8.	Plans for AP1000/Vogtle Site Assessment	15 min
9.	Discussion	30 min
