Re: License No. 37-28333-01

Dear Sir or Madam:

Recently we amended our license to include sealed sources for attenuation correction (10CFR 35.500). Apparently, the camera manufacturer has changed the model of the sources used for their system.

Please amend/change our license, Item 7, B. Sealed Sources, to include:
Model NES8497

If we could get this amendment at your earliest convenience, or even a provisional approval, so the system and sources can be shipped, it would be greatly appreciated.

If you have any questions or concerns regarding this amendment, please do not hesitate to contact me at 610-667-2746, or our Nuclear Operations Manager, Terry Day RT, at 609-760-0853.

Thank you for your kind attention to this request.

Sincerely,

Wayne Arnold, D.O.
