Subject: Response to task SRM-DEK061011 - proposed charter ROP

Attached is the EDO memo, dated 12/12/06, ML063040552, that responds to the task in the SRM-DEK061011:

Provide report containing the proposed Charter or international alternatives, schedule, and resource implications on conducting an independent assessment of the reactor oversight process (ROP) at the Indian Point facility and other facilities per the SRM.

From Annette, I understand this was discussed at this morning's EA meeting.

Rochelle
