

## **Appendix F**

**Ronald M. Latanision, Ph.D.**

**Ronald M. Latanision, Ph.D.**  
**Principal and Practice Director**

**Professional Profile**

Dr. Ronald M. Latanision is a Principal and Director of Exponent's Mechanics and Materials practice. Prior to joining Exponent, he was the Director of The H.H. Uhlig Corrosion Laboratory in the Department of Materials Science and Engineering at M.I.T., and held joint faculty appointments in the Department of Materials Science and Engineering and in the Department of Nuclear Engineering. He is now an Emeritus Professor at MIT. In addition, he is a member of the National Academy of Engineering and a Fellow of ASM International, NACE International, and the American Academy of Arts and Sciences. From 1983–1988, Dr. Latanision was the first holder of the Shell Distinguished Chair in Materials Science. He was a founder of Altran Materials Engineering Corporation, established in 1992, and led the Materials Processing Center at MIT as its Director from 1985 to 1991.

Dr. Latanision's research interests are focused largely in the areas of materials processing and in the corrosion of metals and other materials in aqueous (ambient as well as high temperature and pressure) environments. He specializes in corrosion science and engineering with particular emphasis on materials selection for contemporary and advanced engineering systems and in failure analysis. His expertise extends to electrochemical systems and processing technologies, ranging from fuel cells and batteries to supercritical water power generation and waste destruction. Dr. Latanision's research interests include stress corrosion cracking and hydrogen embrittlement of metals and alloys, water and ionic permeation through thin polymer films, photoelectrochemistry, and the study of aging phenomena/life prediction in engineering materials and systems. He speaks annually at MIT's Reactor Technology Conference for Utility Executives. Dr. Latanision is a member of the International Corrosion Council and serves as Co-Editor-in-Chief of *Corrosion Reviews*.

Dr. Latanision has served as a science advisor to the U.S. House of Representatives Committee on Science and Technology in Washington, D.C. He has also served as a member of the Advisory Committee to the Massachusetts Office of Science and Technology, an executive branch office created to strengthen the Commonwealth's science and technology infrastructure with emphasis directed toward future economic growth. Dr. Latanision has served as a member of the National Materials Advisory Board of the National Research Council and now serves as a member of the NRC's Committee on Undergraduate Science Education. He hosts the annual Siemens Westinghouse Science and Technology Competition on the MIT campus. In June of 2002, Dr. Latanision was appointed by President George W. Bush to membership on the U.S. Nuclear Waste Technical Review Board.

**Credentials and Professional Honors**

Ph.D., Metallurgical Engineering, Ohio State University, 1968  
B.S., Metallurgy, Pennsylvania State University, 1964

2004 Henry B. Linford Award, Electrochemical Society; 2004 Best Paper of the Year in “Metals and Materials International”, Korean Institute for Metals and Machinery; 2001 T.P. Hoar Award, British Institute of Corrosion; Fellow, American Academy of Arts and Sciences (1997); Centennial Fellow, College of Earth and Mineral Sciences, Pennsylvania State University (1996); NACE Fellow Award, NACE International (1995); Willis Rodney Whitney Award, NACE International (1994); Honorary Alumnus, Association of Alumni/Alumnae of MIT (1992); Distinguished Alumnus, The Ohio State University (1991); Visiting Professor, University of Naples, Italy (1989–); President, Alpha Sigma Mu (1989); Fellow, ASM International (1988); David Ford McFarland Award, The Pennsylvania State University (1986); Member—National Academy of Engineering (1985); Henry Krumb Lecturer, AIME (1984); Shell Distinguished Professor of Materials Science (1983–1988); Case-Western Reserve Centennial Scholar (1980); Senior U.S. Scientist Award for Research and Teaching, the Alexander von Humboldt Foundation; Federal Republic of Germany (1974), Tenure (June 1974–June 1975); A.B. Campbell Young Author’s Award for 1972, National Association of Corrosion Engineers; National Academy of Sciences–National Research Council Postdoctoral Fellowship Award; National Bureau of Standards (1968–1969); N.A.S.A. Traineeship, Ohio State University (1964–1968); Bayard D. Kunkle Award, Pennsylvania State University (1963–1964); Alcoa Foundation Scholarship, Pennsylvania State University (1962–1964); American Society for Metals Foundation for Education Scholarship, Pennsylvania State University (1961–1962); Mineral Industries Scholarship, Pennsylvania State University (1960–1961); Election to various Honorary Fraternities including Phi Eta Sigma, Tau Beta Pi, Sigma Tau, Phi Kappa Phi, Sigma Gamma Epsilon, Alpha Sigma Mu.

## **Publications**

“Corrosion in Supercritical Water—Waste Destruction Environments,” ASM Handbook, Vol. 13B, Corrosion: Materials, Environments and Industries, ASM International, Metals Park, OH, in press (with D.B. Mitton).

“Influence of Chromizing Treatment on the Corrosion Behavior of AISI 316 Stainless Steel in Supercritical Water Oxidation,” *Metals and Materials International*, Vol. 10, No.1, p. 83, 2004 (with H.S. Kim, J.H. Yoon, J.H. Han, D.B. Mitton, and Y.S. Kim). KIMM Best Paper of 2004.

“Do All RPV Head Penetration Leaks Have the Potential to Cause Head Wastage?” Proceedings of ICONE-12, 2004 (with C. Roy, J. Fessler, J. Foulds, and D. Taylor).

“Hot Corrosion in Gas Turbine Components,” *Engineering Failure Analysis*, Vol.9, p31, 2002 (with N. Eliaz, and G. Shemesh).

“The Applicability of EIS for Assessing Substrate Metal Mass Loss for Polymer-Coated Metals,” Proceedings, 2002 Tri-Service Corrosion Conference, 2002 (with D.B. Mitton, S.L. Wallace, N.J. Cantini, N. Eliaz, F. Bellucci, and G.E. Thompson).

“An Examination of Degradation Modes of Constructional Materials for Supercritical Water Oxidation System Fabrication,” Proceedings, 2002 Tri-Service Corrosion Conference, 2002 (with D.B. Mitton, H. Kim, and J. Zhang).

“An Examination of the Corrosion Phenomena of Potential Constructional Materials for SCWO System Fabrication,” Paper 353, *Corrosion '02*, 2002 (with D.B. Mitton, H. Kim, J. Zhang, N. Eliaz, and C.R. Sydnor).

“The Correlation Between Substrate Mass Loss and Electrochemical Impedance Spectroscopy Data for a Polymer-Coated Metal,” *J. Electrochem. Soc.*, 2002 (with D.B. Mitton, S. Wallace, N. Cantini, F. Bellucci, G.E. Thompson, N. Eliaz and R.M. Latanision, D.B. Mitton, H. Kim, J. Zhang, N. Eliaz, and C.R. Sydnor).

“Aerospace Gerontology: Retained Austenite as an Aging Mechanism in Duplex Bearings,” *Materials Technology/Advanced Performance Materials*, Vol. 16, p. 36, 2001 (with G. Leisk, P.J. Wender, D.B. Mitton, and C.V. Trainor).

“Corrosion Behavior of Advanced Ti-Based Alloys Made by Three-Dimensional Printing (3DP™) for Biomedical Applications,” *Corrosion Science*, Vol. 43, p. 1781, 2001 (with S-B. Hong, N. Eliaz, E.M. Sachs, and S.M. Allen). T.P. Hoar Prize of the Institute of Corrosion (UK)

“A New Ti-5Ag Alloy for Customized Prostheses by Three Dimensional Printing,” *Journal of Dental Research*, Vol. 80, No. 3, p. 860, 2001 (with S-B. Hong, N. Eliaz, G. Leisk, E.M. Sachs, and S.M. Allen).

“An Overview of the Current Understanding of Corrosion in SCWO Systems for the Destruction of Hazardous Waste Products,” *Materials Technology/Advanced Performance Materials*, Vol. 16, p. 44, 2001 (with D.B. Mitton, N. Eliaz, and J.A. Cline).

“The Use of EIS and VSM for Measuring the Corrosion Rate of Polymer-Coated Ferromagnetic Metals,” *Materials Technology/Advanced Performance Materials*, Vol. 16, p. 90, 2001 (with N. Eliaz, D.B. Mitton, N.J. Cantini, G. Leisk, S.L. Wallace, F. Bellucci, and G.E. Thompson).

“The Corrosion Behavior of Nickel-Base Alloys in SCWO Systems,” *Ind. Eng. Chem. Research*, Vol. 39, p. 4689, 2000 (with D.B. Mitton, J.H. Yoon, J.A. Cline, H.S. Kim, and N. Eliaz).

“Corrosion Resistance of Stainless Steels in Chloride Containing SCWO Systems,” *Korean Journal of Chemical Engineering*, Vol. 17, p. 58, 2000 (with Y.S. Kim and D.B. Mitton).

“*In-Situ* Underfilm Corrosion Rate Measurement by Magnetic and Electrochemical Techniques,” *Electrochemical and Solid State Letters*, Vol. 3, No. 6, p. 275, 2000 (with N.J. Cantini, D.B. Mitton, N. Eliaz, G. Leisk, S.L. Wallace, F. Bellucci, and G.E. Thompson).

“An Overview of Corrosion Phenomena in SCWO Systems for Hazardous Waste Destruction, Zairyo-to-Kankyo (Corrosion Engineering),” *Japan Society of Corrosion Engineering*, Vol. 49, No. 3, 2000 (with D.B. Mitton and J.H. Yoon).

“Electrochemical Migration Tests of Solder Alloys in Pure Water,” *Corrosion Science*, Vol. 39, pp. 1415–1430, 1997 (with T. Takemoto, T.W. Eagar, and A. Matsunawa).

“The Potential for Unanticipated Biodegradation During EIS Analysis of Polymer-Coated Metallic Substrates,” *Electrochimica Acta*, Vol. 42, p. 1859, 1997 (with D.B. Mitton, T.E. Ford, E. LaPointe, F. Bellucci, and R. Mitchell).

“Desulfurization of Ni-Based Superalloys by Combined Heating and Glow Discharge,” *Scripta Materialia*, Vol. 34, p. 1315, 1996 (with R.A. Outlaw, S. Rezaie-Serej, and W.P. Allen).

“The Effect of Post-Cure Annealing on the Protective Properties of Polyimides on Chromium Substrates,” *Journal of the Electrochemical Society*, Vol. 143, p. 3307, 1996 (with D.B. Mitton and F. Bellucci).

“Interpretation of the Rationale for feed Modification in SCWO Systems,” *Journal of the Electrochemical Society*, Vol. 143, No. 3, p. L59, 1996 (with D.B. Mitton and P.A. Marrone).

“Corrosion of Rapidly Solidified Neodymium-Iron-Boron (Nd-Fe B) Permanent Magnets and Protection via Sacrificial Zinc Coatings,” *Materials Science and Engineering*, Vol. A198, p. 125, 1995 (with S.A. Attanasio).

“Corrosion Science, Corrosion Engineering and Advanced Technologies,” *Corrosion*, Vol. 51, p. 270, 1995.

“Education Reform and the Public Will,” *American Education: Still Separate, Still Unequal, Daedalus*, Vol. 124, No. 4, p. 143, 1995.

“The Effect of Aging on the Diffusivity of Hydrogen in Amorphous Ni-Si-B Alloys,” *Corrosion Science*, Vol. 37, No. 6, p. 865, 1995 (with Hara).

“The Role of Universities in K–12 Education,” American Academy of Arts and Sciences, June 1995 (with W. Damon).

“An X-ray Photoelectron Spectroscopy Study of Chromium Metalloid Alloys-III,” *Electrochimica Acta*, Vol. 40, p. 1723, 1995 (with T.P. Moffat and R.R. Ruf).

“Corrosion of Metal Matrix Composites,” *International Materials Review*, Vol. 39, No. 6, p. 245, 1994 (with L.H. Hihara).

“Transport and Dielectric Properties Of Poly(ethyleneterephthalate) as Determined via Electrochemical Techniques,” *Journal of Applied Polymer Science*, Vol. 48, pp. 2197–2205, 1993 (with M.J. Kloppers, F. Bellucci, and J.E. Brennan).

- “Morphological Aspects of Anodic Dissolution,” *Phys. Review.*, Vol. B. 47, p. 11749, 1993 (with M.G. Fernandes and P.C. Searson).
- “Corrosion Behavior of A Steel Surface Laser-Alloyed with Chromium Borides,” *Journal of Materials Science*, Vol. 27, p. 3014, 1992 (with Y. Zuo).
- “Electrochemistry of Chromium-Metalloid Alloys in Sulfuric Acid—II,” *Journal of the Electrochemical Society*, Vol. 139, p. 1013, 1992 (with T.P. Moffat).
- “Electronic Properties and Defect Structure of Fe and Fe-Cr Passive Films,” *Corrosion*, Vol. 48, p. 229, 1992 (with M.J. Kloppers and F. Bellucci).
- “Environment-Induced Cracking of Two Ni-Base Amorphous Alloys in Acid Chloride Solutions,” *Materials Science and Engineering*, Vol. A159, p. 87, 1992 (with Y. Zuo).
- “Galvanic Corrosion of Aluminum-Matrix Composites,” *Corrosion*, Vol. 48, p. 546, 1992 (with H. Hihara).
- “A Study of Corrosion Initiation on Polyimide Coatings,” *Corrosion Science*, Vol. 33, p. 1203, 1992 (with F. Bellucci, L. Nicodemo, T. Monetta, and M.J. Kloppers).
- “Acid Corrosion Inhibition of Nickel by 2-(Triphenyl Phosphoranylidene) Succinic Anhydride,” *Corrosion*, Vol. 47, p. 667, 1991 (with E. Khamis and F. Bellucci).
- “Corrosion Engineering in Device Packaging,” *Mat. Res. Soc. Symp. Proc.*, Vol. 203, p. 87, 1991 (with P.V. Nagarkar, M.J. Kloppers, and F. Bellucci).
- “Grain Boundary Diffusion of Hydrogen in Nickel,” *Met. Trans.* Vol. 22A, p. 351, 1991 (with T.M. Harris).
- “Localized Corrosion Induced in Graphite/Aluminum Metal-Matrix Composites by Residual Microstructural Chloride,” *Corrosion*, Vol. 47, p. 335, 1991 (with L.H. Hihara).
- “Na<sup>+</sup> and Cl<sup>-</sup> Transport Across Polyimide Films,” *Journal of Applied Polymer Sciences*, Vol. 42, p. 1567, 1991 (with A. Schussler, F. Bellucci, and S.D. Senturia).

### **Presentations and Published Abstracts**

“The Applicability of EIS for Assessing Substrate Metal Mass Loss for Polymer-Coated Metals,” *Proc. 2002 Tri-Service Corrosion Conference*, San Antonio, TX, January 14–18, 2002 (with D.B. Mitton, S.L. Wallace, N.J. Cantini, N. Eliaz, F. Bellucci, and G.E. Thompson).

“An Examination of the Corrosion Phenomena of Potential Constructional Materials for SCWO System Fabrication,” Paper 353, *Corrosion 02*, Denver, CO, April 7–12, 2002 (with D.B. Mitton, H. Kim, J. Zhang, N. Eliaz, and C.R. Sydnor).

“An Examination of Degradation Modes of Constructional Materials for Supercritical Water Oxidation System Fabrication,” *Proc. 2002 Tri-Service Corrosion Conference*, San Antonio, TX, January 14–18, 2002 (with D.B. Mitton, H. Kim, and J. Zhang).

“Assessing Degradation Mechanisms in Supercritical Water Oxidation Systems,” Paper 352, *Corrosion 01*, Houston, TX, March 11–16, 2001 (with D.B. Mitton, J.H. Yoon, N. Eliaz, and J.A. Cline).

“Corrosion Mechanisms in N10276 in Hydrothermal HCl Solutions,” Paper 362, *Corrosion 01*, Houston, TX, March 11–16, 2001 (with J.A. Cline, P.A. Marrone, J.W. Tester, and D.B. Mitton).

“Stress Corrosion Cracking in Supercritical Water Systems for Waste Destruction,” *Chemistry and Electrochemistry of Stress Corrosion Cracking: A Symposium Honoring R.W. Staehle*, p. 597, 2001 (with D.B. Mitton and N. Eliaz).

“The Corrosion Behavior of Nickel-Base Alloys in SCWO Systems,” *Proc. 5th International Symposium on Supercritical Fluids*, Atlanta, GA, April 8–12, 2000 (with D.B. Mitton, J.H. Yoon, J.A. Cline, H.S. Kim, and N. Eliaz).

“Stress Corrosion Cracking in Supercritical Water Systems,” *Proc. 1st International Symposium on Supercritical Water-Cooled Reactors, Design and Technology (SCR-2000)*, Tokyo, Japan, November 6–9, 2000 (with D.B. Mitton).

“Aluminizing and Boroaluminizing Surface Modifications of Mar-M247 and Their Effects on Hot Corrosion Resistance in Na<sub>2</sub>SO<sub>4</sub>-NaCl Molten Salt,” Abstract 1729, *196th Electrochemical Society Meeting*, Honolulu, HI, 1999 (with J-H. Yoon, T.W. Kim, J.H. Lee, H.S. Kim, G.G. Leisk, and D.B. Mitton).

“Application of Practical Aging Management Concepts to Corrosion Engineering,” Plenary Lecture, *14th International Corrosion Congress*, Cape Town, South Africa, September 26–October 1, 1999 (with G.G. Leisk, W.J. McBrine, T. Esselman, O.J. Van Der Schijff and P.J. Wender).

“Corrosion Considerations for Employing SCWO During Hazardous Waste Destruction,” *Proc. 1st International Symposium on SCWO Technology*, Changwon, Korea, December 15, 1999 (with D.B. Mitton, J-H. Yoon, and J.A. Cline).

“Corrosion of SCWO Constructional Materials in Cl Containing Environments,” Paper 257, *Symposium on Corrosion in Supercritical Processes—Corrosion 99*, 1999 (with D.B. Mitton, Y.S. Kim, J.H. Yoon, and S. Take).

“Effect of Pre-Sputtering on Nitride Layer Formation in Ion Nitriding of STS 304 Stainless Steel,” Abstract 1297, *196th Electrochemical Society Meeting*, Honolulu, HI, 1999 (with J-H. Yoon, M.S. Son, G.W. Lee, H.S. Kim, G.G. Leisk, and D.B. Mitton).

“Evaluation of Corrosion Resistance of Metal Evaporated Tape by Electrochemical Measurements,” *Proc. 196th Meeting of The Electrochemical Society*, Honolulu, HI, October 17–22, 1999 (with S. Take, M. Okuyama, S. Yuditskaya, and D.B. Mitton).

“Biodegradation of Polyimide-Coated Chromium Substrates,” *Symposium on Corrosion Control by Coatings* (ACS Symposium 689), p. 211, ACS, Washington, DC, 1998 (with D.B. Mitton, S. Toshima, S.S. Chang, F. Bellucci, T.E. Ford, J-O. Gu, and R. Mitchell).

“Corrosion Engineering of Supercritical Water Oxidation Systems for Chemical Waste Destruction,” *Corrosion in Advanced Materials and Systems*, p. 129, NACE, Houston, TX, 1998 (with D.B. Mitton, S.H. Zhang, J.A. Cline, M.S. Quintana, N. Caputy and P.A. Marrone).

“Corrosion Mitigation in SCWO Systems for Hazardous Waste Disposal,” Paper 414, *Symposium on Corrosion in Supercritical Fluids, Corrosion 98*, 1998 (with D.B. Mitton, S.H. Zhang, M.S. Quintana, J.A. Cline, N. Caputy, and P.A. Marrone).

“Evaluation of Hot Corrosion Resistance of Alloys Under Molten Sulfate Film by Electrochemical Techniques,” Paper 294, *194th Electrochemical Society Meeting*, Boston, MA, 1998 (with S. Take, S. Maruyama, M. Okuyama, and D.B. Mitton).

“Evaluation of Retained Austenite as an Aging Mechanism in a Duplex Bearing,” *Proc. 24th Joint Service Data Exchange*, Anaheim, CA, 1998 (with G.G. Leisk and D.B. Mitton).

“An Investigation of the Degradation of Nickel Alloys in Supercritical Water Oxidation Systems,” Paper 1014, *Symposium on Electrochemistry in Unusual Media and Under Unusual Conditions, 193rd Electrochemical Society Meeting*, San Diego, CA, 1998 (with D.B. Mitton, M.S. Quintana, J.A. Cline, and N. Caputy).

“The Role of Nitrogen and Molybdenum in the Corrosion of Stainless Steels,” Paper 236, *194th Electrochemical Society Meeting*, Boston, MA, 1998 (with Y.S. Kim, Y.S. Park, and B. Mitton).

“A Study of the Wet Etching Behavior of CoNbZr/Cu/CoNbZr Multi-Layer Films Formed by RF Magnetron Sputtering,” *194th Electrochemical Society Meeting*, Boston, MA, 1998 (with J-H. Yoon, J-S. Song, B. Mitton, and H-S. Kim).

“Effects of Pre-heating on the Electrochemical Impedance and Microstructure of An As-Cast Co-Cr-Mo Alloy,” *Proc. Symposium on Passivity and Breakdown*, Electrochemical Society, Pennington, 1997 (with Montero-Ocampo).

“Evaluating Stress Corrosion in Supercritical Water Oxidation Systems for the Destruction of Hazardous Waste,” Paper No. 203, *Corrosion 97*, NACE, Houston, TX, 1997 (with D.B. Mitton, S-H. Zhang, K.E. Hautanen, J.A. Cline, and E-H.J. Han).

“Corrosion Mechanisms in Supercritical Water Oxidation Systems for Hazardous Waste Destruction,” *Proc. 1997 Tri-Service Conference on Corrosion*, 1997 (with D.B. Mitton, S-H. Zhang, J.A. Cline, M.S. Quintana, and N. Caputy).

“Degradation in Supercritical Water Oxidation Systems,” ACS Symposium series, *Supercritical Fluids: Extraction and Pollution Prevention*, (M.A. Abraham and A.K. Sunol, eds.), p. 242, American Chemical Society, Washington, DC, 1997 (with D.B. Mitton, E.-H. Han, S.-H. Zhang, and K.E. Hautanen).

“Evaluation Method for Electrochemical Migration Susceptibility in Pure Water,” *Microjoining and Assembly Technology in Electronics* (Japan Welding Society), 1997 (with T. Takemoto, T.W. Eagar, and A. Matsunawa).

“A Greenfield for Corrosion Engineering,” Keynote address given at Intercorr 96—1st Global Internet Corrosion Conference, 1996.

“Corrosion in Supercritical Water Oxidation Systems,” Physical Chemistry of Aqueous Systems—Meeting the Needs of Industry, Proc 12th Intl. Conference on the Properties of Water and Steam, Begell House, New York, p. 638, 1995 (with D.B. Mitton and J.C. Orzalli).

“Corrosion Phenomena Associated with Supercritical Fluids,” 3rd International Symposium on Supercritical Fluids; Vol. 3, p. 43, 1995 (with D.B. Mitton and J.C. Orzalli).

“Corrosion Studies in Supercritical Water Oxidation Systems,” *Innovations in Supercritical Fluids: Science and Technology*, ACS Symposium Series, Vol. 608, p. 327, 1995 (with D.B. Mitton and J.C. Orzalli).

“Effect of Alloy Additions on the Electronic Properties of Passive Films on Ti and Fe: A Photoelectrochemical Investigation,” *Proc. H.H. Uhlig Memorial Symposium, Electrochemical Society Monograph Series, 94-26*, p. 127, 1995 (with H. Ezaki and G. Berera).

“Lifetime Prediction for Polyimide Metal Structures Immersed in 0.5 MNaCl,” 3rd International Symposium on Corrosion and Reliability of Electronic Materials and Devices, Electrochemical Society, Monograph Series, 1995 (with Nenov).

“Improving the Corrosion Resistance of Polyimide Coated Metallic Substrates,” *Proc. 2nd Intl. Symposium on Corrosion and Reliability of Electronic Materials and Devices*, Toronto, Canada, The Electrochemical Society, 1993 (with E.K. Tan, D.B. Mitton, P.V. Nagarkar, and F. Bellucci).

“Supercritical Water Oxidation for Wastes Cleanup: Enabling Research for Practical Applications,” *First International Conference on Solvo-Thermo Reactors*, paper 5-6, p. 1, 1995 (with W.A. Peters, P. Griffith, J.G. Harris, H.J. Herzog, J.B. Howard, K.A. Smith, and J.W. Tester).

“Transport and Protective Properties of Polyimides as Studied via Electrochemical Impedance Spectroscopy,” *Advances in Polyimide Science and Technology, Proc. 4th Intl. Conference on Polyimides*, Technomic Publishing Co., Ellenville, NY, 1993 (with D.B. Mitton, F. Bellucci, E.K. Tan, and P.V. Nagarkar).

“A Materials and Processing Agenda for the 1990s,” Presentation to the Federation of Materials Societies Biennial Meeting on Developing a Vision for Materials Processing in the 1990s: The Role of National Policy, FMS, Washington, DC, 1991 (with G.B. Kenney and T.J. Allen).

“Education in America—A Need for Stewardship,” Keynote address presented before the MIT Alumni Leadership Conference, Cambridge, MA, September 15, 1990.

“Hydrogen Embrittlement of Two Nickel Base Amorphous Alloys in Acidic Chloride Solution,” *Corrosion Control -- 7th APCCC*, Vol. 1, pp. 475–480, 1991 (with Y. Zuo).

“Transport and Protective Properties of Polyimides As Studied Via Electrochemical Impedance Spectroscopy,” *Fourth International Conference on Polyimides*, p. 169, 1991 (with E.K. Tan, D.B. Mitton, F. Bellucci, and P.V. Nagarkar).

“The Effect of Thickness on the Electrical Conductivity of Kapton Polyimide,” *11th International Corrosion Conference*, Vol. 2, p. 215–222, 1990 (with F. Bellucci and E. Khamis).

“Corrosion Engineering in the Packaging of Electronic, Magnetic, and Optical Devices,” *International Symposium on Corrosion Science and Engineering* (in honor of Marcel Pourbaix’s 85th Birthday) (R.A. Rapp, N.A. Gokcen, A. Pourbaix, eds.), CEBELCOR, Vol. 2, p. 491, 1989 (with F. Bellucci, E. Khamis, P.V. Nagarkar, P.C. Searson, A. Schussler, and S.D. Senturia).

“Electrochemical and Transport Properties of Polyimide,” *Proc. 2nd International Symposium on ULSI Science and Technology*, The Electrochemical Society, Los Angeles, CA, May 7–12, 1989, (with F. Bellucci, A. Schussler, and P.V. Nagarkar).

“Interfacial Interactions Affecting Polyimide Reliability,” *39th Electronic Components Conference*, p. 160, IEEE, 1989 (with P.V. Nagarkar, P.C. Searson, F. Bellucci, and M.G. Allen).

“The Passive State of Chromium,” *Proc. Symposium on Transient Techniques in Corrosion Science and Engineering* (W. Smyrl, D.D. MacDonald, and W.J. Lorenz, eds.), p. 202, Electrochemical Society, Pennington, NJ, 1989 (with T.P. Moffat).

“Electrochemistry of Cr- and Ni-Base Binary Metallic Glasses,” *Proc. 10th International Congress on Metallic Corrosion*, p. 597, Oxford and IBH Publishing, New Delhi, 1987 (with P.V. Nagarkar, T.P. Moffat, and P.C. Searson).

“Current and Projected Impact of Corrosion Science and Engineering,” *33<sup>rd</sup> Sagamore Army Materials Research Conference, July 28–August 1, 1986, Materials Performance*, Vol. 26, No. 10, p. 9, 1987.

“Physical Metallurgy of Nickel-Base Alloys as It Relates to Corrosion,” *Proc. International Conference on The Corrosion of Nickel-Base Alloys*, pp. 13, ASM, 1985.

“The Effect of Phosphorus on the Corrosion Resistance of Rapidly Quenched Alloys,” *Proc. 5th International Conference on Rapidly Quenched Metals*, pp. 1457–1464, 1985 (with T.D. Burleigh and E.R.C. Johns).

“Corrosion Behavior of Rapidly Solidified Fe-Ti-P Alloys With Cu, Cr, and B Additions,” *Proc. Materials Research Society 1983 Annual Meeting*, pp. 219–225, North Holland, 1984 (with R. Shastry and H.E. Townsend).

“Corrosion Resistance of Microcrystalline Aluminum Alloys,” *Proc. 9th International Congress on Metallic Corrosion*, Vol. 3, pp. 122–129, 1984.

“The Effect of Phosphorus on the Corrosion and Photocorrosion of Glassy Copper-Zirconium Alloys,” *Proc. 9th International Congress on Metallic Corrosion*, Vol. 2, pp. 645–648, 1984 (with T.D. Burleigh).

“The Effect of Phosphorus on the Corrosion Resistance of Glassy Copper-Zirconium Alloys,” *Proc. Materials Research Society 1983 Annual Meeting*, pp. 227–231, North Holland, 1984 (with T.D. Burleigh).

“The Effect of Rapid Quenching on Microstructure and Passivity in Iron-Titanium Alloys,” *Proc. 9th International Congress on Metallic Corrosion*, Vol. 1, pp. 228–233, 1984 (with C. Johns and J.B. Vander Sande).

“Fatigue Crack Growth of Inconel Alloy X-750 in Simulated BWR Environments,” *Proc. 9th International Congress on Metallic Corrosion*, Vol. 3, pp. 310–316, 1984 (with K. Sheeks and R.G. Ballinger).

“Hydrogen Permeation and Embrittlement Studies on Metallic Glasses,” *Alexander R. Troiano Honorary Symposium on Hydrogen Embrittlement and Stress Corrosion Cracking*, pp. 297–313, ASM, Metals Park, 1984 (with C.R. Compeau and M. Kurkela).

“Hydrogen Transport During Plastic Deformation,” *Proc. 9th International Congress on Metallic Corrosion*, Vol. 4, pp. 427–436, 1984 (with M. Hashimoto).

“The Interaction of Hydrogen Permeation and Deformation in Poly- and Single Crystal Nickel,” *Proc. 9th International Congress on Metallic Corrosion*, Vol. 4, pp. 466–472, 1984 (with S. Frankel).

“A Study of Localized Corrosion in Aluminum Using the Scanning Potential Microprobe,” *Proc. 9th International Congress on Metallic Corrosion*, Vol. 4, pp. 191–197, 1984 (with N.D. Kackley).

“A Study of the Thermal Aging Behavior of Alloy-600,” *Proc. 9th International Congress on Metallic Corrosion*, Vol. 3, pp. 265–273, 1984 (with R.G. Ballinger, W.C. Moshier and K.N. Siebein).

“Corrosion of Aluminum in Salt Water and Seawater as Influenced by Magnesium and Copper,” *Corrosion 83*, NACE, Houston, 1983 (with S.W. Smith and N.D. Kackley).

“Corrosion Resistance of Rapidly Quenched Alloys,” *Proc. Symposium on the Chem. and Phys. of Rapidly-Solidified Materials*, pp. 153–171, TMS, 1983 (with A. Saito, R. Sandenbergh, and S.-X. Zhang).

“Fatigue Crack Growth in Alloys X-750 and 600 in Simulated PWR and BWR Environments,” *International Symposium on Environmental Degradation of Materials in Nuclear Power Systems*, pp. 702, Electric Power Research Institute, 1983 (with S. Sheeks, W.C. Moshier, R.G. Ballinger, and R.M.N. Pelloux).

“The Corrosion Resistance of Microcrystalline Alloys,” *Proc. 4th International Conference on Rapidly Quenched Metals*, pp. 1437–1442, 1982 (with T. Tsuru and S.X. Zhang).

“The Role of Uncertainty in the Measurement of Crack Length by Compliance Techniques,” *International Conference on Subcritical Crack Growth*, pp. 261–285, Freiberg, Germany, 1981 (with R.G. Ballinger, C. Moshier, and R.M.N. Pelloux).

“Synergistic Effects of Thermal Treatment and Cathodic Polarization on the Fatigue Crack Growth Behavior of Inconel 600,” *Proc. 8th International Congress on Metallic Corrosion*, pp. 400–405, DECHEMA, Frankfurt, 1981 (with G.S. Was).

“The Corrosion Resistance of Microcrystalline Stainless Steels,” *Corrosion and Corrosion Protection* (Uhlig Symposium), pp. 238–248, Electrochemical Society, 1981 (with T. Tsuru).

“The Redistribution of Cathodic Activity on an Aluminum Surface in Seawater upon the Introduction of Copper Ions,” *Corrosion 81*, NACE, Houston, TX, 1981 (with S.W. Smith, Jr.).

“The Corrosion Resistance of Glassy Metals,” *Proc. Third International Conference on Mechanical Behavior of Metals*, Vol. 2, pp. 475–483, Pergamon Press, Toronto, 1979 (with J.C. Turn, Jr., and C.R. Compeau).

“Stress Corrosion Cracking and Hydrogen Embrittlement: Differences and Similarities,” *Proc. Symposium on Environment Sensitive Fracture of Engineering Materials*, pp. 48–70, TMS-AIME, Warrendale, 1979 (with O.H. Gastine and C.R. Compeau).

“Mechanisms of Corrosion of Glassy Copper Zirconium Alloys,” *Proc. Seventh International Congress on Metallic Corrosion*, Vol. 1, pp. 279–288, 1978 (with J.C. Turn, Jr.).

“Surface Effects in Crystal Plasticity: General Overview,” *Proc. NATO Advanced Study Institute on Surface Effects in Crystal Plasticity*, pp. 3–47, Noordhoff International Publishing Co., Leyden, Holland, 1977.

“The Influence of Surface Charge Density on the Plasticity and Fracture of Zinc Monocrystal Electrodes,” *Proc. 4th International Conference on the Strength of Metals and Alloys*, Vol. 2, pp. 903–904, 1976 (with H. Opperhauser, Jr., and A.R.C. Westwood).

“Surface- and Environment-Sensitive Mechanical Behavior—Some Current Issues,” *Proc. 4th International Conference on the Strength of Metals and Alloys*, Vol. 3, pp. 1092–1121, 1976 (with R.C. Westwood).

“Electrocapillarity and the Microhardness of Zinc Monocrystal Electrodes,” *Proc. 5th International Congress on Metallic Corrosion*, pp. 111–114, NACE, Houston, TX, 1974 (with H. Opperhauser, Jr., and A.R.C. Westwood).

“Electrochemical Techniques in the Study of Embrittlement Phenomena,” Presented at Symposium on Electrochemical Techniques Applied to Corrosion Problems, *Corrosion 74*, NACE, Houston, TX, 1974 (with J.A.S. Green).

“Environment-Sensitive Hardness and Machinability of Alumina,” *Proc. NSF-Hard Materials Workshop*, Lehigh University, July 1974 (with M.V. Swain and A.R.C. Westwood).

“The Chemical and Physical Nature of Surfaces,” *Proc. International Conference on Surface Technology*, pp. 1–22, Society of Manufacturing Engineers, Dearborn, 1973.

“Intergranular Cracking of Pure Nickel Electrodes at Cathodic Potentials,” *Proc. Third International Conference on the Strength of Metals and Alloys: The Microstructure and Design*

*of Alloys*, Vol. 1, pp. 472–476, The Institute of Metals and Iron and Steel Institute, 1973 (with H. Opperhauser, Jr.).

“The Influence of Applied Potential on the Microhardness of Zinc Monocrystal Electrodes: The Electrocapillary Effect,” *Proc. International Conference on the Science of Hardness Testing and Its Research Applications*, pp. 432–439, A.S.M., Metals Park, 1973 (with H. Opperhauser and A.R.C. Westwood).

“Comments on Adsorption-Sensitive Cracking,” *Proc. Conference on the Environmental Degradation of Stressed Materials*, pp. 62–103, A.R.P.A., Woods Hole, MA, July 1971 (with R.C. Westwood).

“Surface-Sensitive Mechanical Behavior of Nickel Monocrystals,” *Proc. Second International Conference on the Strength of Metals and Alloys*, pp. 446–450, A.S.M., Metals Park, 1970.

“Stress-Corrosion Cracking of Iron-Nickel-Chromium Alloys,” *Proc. Conference on Fundamental Aspects of Stress-Corrosion Cracking*, pp. 214–307, NACE, Houston, TX, 1969 (with R.W. Staehle).

“Surface Effects in Crystal Plasticity I: Scientific Aspects,” Max-Planck-Institut für Eisenforschung, Düsseldorf, Germany, October 30, 1974.

“Surface Phenomena in Metal Cutting and Ceramic Machining—and Earthquakes to Order,” Carolinas Control Chapter, ASM, Raleigh, NC, May 9, 1974.

“Some Applications of Surface Science to Materials Technology,” Esso Corporate Research Center, Linden, NJ, April 16, 1974.

“Materials Science,” Maryland Academy of Science Junior Science and Humanities Seminar, Baltimore, MD, March 22, 1974.

“Electrochemical Techniques in the Study of Embrittlement Phenomena,” National Association of Corrosion Engineers Annual Spring Meeting, Chicago, IL, March 7, 1974

“Some Applications of Surface Science to Materials Technology,” Department of Chemical Engineering and Materials Science, University of Minnesota, February 25, 1974.

“Some Applications of Surface Science to Materials Technology,” Department of Metallurgy and Materials Science, University of Pennsylvania, February 14, 1974.

“Some Applications of Surface Science to Materials Technology,” Department of Metallurgy and Materials Science, Massachusetts Institute of Technology, January 29, 1974.

“Surface Effects in Crystal Plasticity,” Mechanical and Aerospace Engineering Seminar Series, University of Delaware, November 16, 1973.

“Intergranular Embrittlement of Ni by Cathodically Produced Hydrogen,” Conference on Hydrogen in Metals, Seven Springs, PA, September 25, 1973.

“Intergranular Cracking of Pure Nickel Electrodes at Cathodic Potentials,” Third International Conference on the Strength of Metals and Alloys, Cambridge University, England, August 24, 1973.

“Hydrogen Embrittlement of F.C.C. Metals and Alloys,” Max-Planck-Institut für Eisenforschung, Dusseldorf, Germany, August 15, 1973.

“Surface Effects in Crystal Plasticity,” Max-Planck-Institut für Metallforschung, Institut für Physik, Stuttgart, Germany, August 13, 1973.

“Electromechanical Machining of Metals and Alloys,” Engineering Conference, Society of Manufacturing Engineers, Detroit, MI, May 9, 1973.

“The Chemical and Physical Nature of Surfaces,” International Conference on Surface Technology, Carnegie-Mellon University, May 1, 1973.

“Electromechanical Machining,” Army Weapons Command, Research Seminar, Rock Island Arsenal, March 28, 1973.

“Materials Science,” Maryland Academy of Sciences Junior Science and Humanities Symposium, Baltimore, MD, March 23, 1973.

“Intergranular Cracking of Pure Nickel at Cathodic Potentials,” N.A.C.E., Corrosion Research Conference, Anaheim, CA, March 21, 1973

“The Mechanical Properties of Metal Electrodes,” Washington Chapter of the Electrochemical Society, Washington, DC, March 1, 1973.

“The Science and Technology of Environmental Effects on the Mechanical Behavior of Solids,” State University of New York at Stony Brook, December 13, 1972.

“Environment-Sensitive Mechanical Behavior of Metals and Alloys,” Fundamental Research Laboratories, Nippon Steel Company, Kawasaki, Japan, June 2, 1972.

“Surface Effects in Crystal Plasticity,” Kyushu University, Fukuoka, Japan, May 31, 1972.

“Environment-Sensitive Mechanical Behavior of Metals,” Research Institute for Iron, Steel and Other Metals, Tohoku University, Sendai, Japan, May 30, 1972.

“Stress Corrosion Cracking of Al-Zn-Mg Alloys: The Corrosion Behavior of Grain Boundary Constituents,” 5th International Congress on Metallic Corrosion, Tokyo May 25, 1972 (with Sedriks, Green, and Novak).

“Electrocapillarity and the Microhardness of Zinc Monocrystal Electrodes,” 5th International Congress on Metallic Corrosion, Tokyo, May 23, 1972.

“On the Mechanical Properties of Metal Electrodes,” ASM Seminar, The Pennsylvania State University, April 18, 1972.

“Electrocapillary Effects in the Mechanical Behavior of Metals,” Spring Meeting of the American Chemical Society, Boston, MA, April 12, 1972.

“Electrocapillarity and the Microhardness of Zinc Monocrystal Surfaces,” Corrosion Research Conference, N.A.C.E., St. Louis, MO, March 21, 1972.

“The Influence of Applied Potentials on the Microhardness of Zinc Monocrystal Electrodes: The Electrocapillary Effect,” International Symposium on the Science of Hardness Testing and Its Research Applications, National Metal Congress, Detroit, MI, October 20, 1971.

“Electrocapillarity and Mechanical Behavior,” Paul D. Merica Research Center, International Nickel Company, Suffern, NY, August 20, 1971.

“The Characterization of Metal Surfaces,” International Conference on Corrosion Fatigue, Storrs, CT, June 14, 1971.

“On the Anisotropy Observed During the Passivation of Nickel Monocrystals,” National Association of Corrosion Engineers, Corrosion Research Symposium, Chicago, IL, March 22, 1971.

“The Science of Materials,” Maryland Academy of Sciences, Junior Science and Humanities Seminar, Baltimore, MD, March 19, 1971.

“Surface Effects on the Plastic Deformation of Metal Monocrystals,” Columbia University, November 25, 1970.

“Surface Effects on the Plastic Deformation of Metals: The Electrocapillary Effect,” Massachusetts Institute of Technology, November 12, 1970.

“The Temperature Dependence of Stacking Fault Energy in Fe-Cr-Ni Alloys,” AIME Fall Meeting, Cleveland, OH, October 19, 1970.

“Surface-Sensitive Mechanical Behavior of Nickel Monocrystals,” Second International Conference on Strength of Metals and Alloys, A.S.M., Asilomar, CA, September 1, 1970.

“Surface-and Environment-Sensitive Mechanical Behavior of Metals,” Alpha Sigma Mu Seminar, Rensselaer Polytechnic Institute, April 22, 1970.

“Surface-and Environment-Sensitive Mechanical Behavior of Metals,” Materials Engineering Seminar, University of Pittsburgh, January 20, 1970.

“Studies of Extrinsic-Intrinsic Fault Pairs in Austenitic Stainless Steel,” AIME Spring Meeting, Pittsburgh, PA, May 16, 1969.

“Elements of Metallurgy,” Metals Engineering Institute (ASM) Metallurgical Course, Washington Chapter of ASM, National Bureau of Standards February–June 1969.

“Plastic Deformation of Electrochemically Polarized Nickel Single Crystals,” Materials Science Seminar, Research Institute for Advanced Studies (RIAS), June 12, 1968.

“Plastic Deformation of Electrochemically Polarized Nickel Single Crystals,” at Institute for Materials Research Seminar, National Bureau of Standards, May 9, 1968.

“Theoretical Work on Stress-Corrosion,” at Joint Session of IMD (AIME), N.A.C.E. and Electrochemical Society, Carnegie-Mellon University April 25, 1968.

“Stress-Corrosion Cracking of Fe-Cr-Ni Alloys,” At International Meeting on Fundamental Aspects of Stress-Corrosion Cracking, The Ohio State University September 12, 1967.

“On a Mechanism for Stress-Corrosion Cracking in Austenitic Stainless Steel,” Lehigh University April 13, 1967.

## Professional Affiliations

- American Institute of Mining, Metallurgical and Petroleum Engineers
  - Member, TMS-Committee on Chemistry and Physics of Metals (1972–1983)
  - Member, Executive Committee Boston Section of AIME (1976–1980)
  - Member, TMS Committee on Corrosion Resistant Metals (1976–)
  - Member, Continuing Education Committee (1980–1986)
  - Member, TMS Acta Metallurgica Gold Medal and Hume-Rothery Award Subcommittee (1983–)
  - Member, Long Range Planning Committee, (1987–)
- American Society for Metals
  - Member, Oxidation and Corrosion Activity (1976–)
  - Member, Government and Public Affairs Committee (1984–)
  - Awards Chairman, Boston Chapter of ASM (1984–1986)
  - 1985 National Nominating Committee, ASM
  - World Materials Congress 1988, Organizing Committee
- National Association of Corrosion Engineers
  - Member, Governmental Affairs Committee, (1983–1986)
  - Member, Research Committee (1974–1983)
  - Co-Editor, “Corrosion Research in Progress” Column, CORROSION Journal (1973–1976)
  - Chairman, Awards Committee (1990–1991)
  - Director, Ex Officio (1990–1991)
  - Electric Power Research Institute
  - Member, Corrosion Advisory Committee (1978–1981)
- American Society for Testing and Materials
  - Member, Committee G-2 on Erosion and Wear (1972–1983)

- The Electrochemical Society
  - Active Member
- Institute of Electrical and Electronics Engineers
  - Member, Committee on U.S. Competitiveness (1987–)
- US/USSR Agreement for Cooperation in Science and Technology: Corrosion Working Group
  - Project Coordinator, Mechanical-Chemical and Localized Corrosion Processes (1978–1981).
