**Subject:** Information regarding SAMA Screening

State Senator Jeanette White,

During the meeting on Feb 27, you asked me for details about the screening of the SAMAs from 302 to 66. I was not able to answer your question on the spot and promised I would get the information for you. I found the information; it is in Section E.2-2 on page E.2-2 of Appendix E (the environmental report) to the Entergy application for license renewal for Vermont Yankee (ML060300086 in the NRC's ADAMS document retrieval system). The part of the environmental report that contains E.2-2 is included in the attached file (the email system would not allow me to send you the entire environmental report - the file was too big). We will add this information into the final Supplemental Environmental Impact Statement for Vermont Yankee. Can you please forward this message to the other legislators who attended the meeting?

302	Phase I SAMAs candidates
- 57	Not applicable to Vermont Yankee
-4	Similar in nature and could be combined with another SAMA candidate
<u>-175</u>	<u>Already implemented at Vermont Yankee</u>
66	Phase II SAMAs

Rich Emch
