Dear Dr. Spitzberg,

We received NRC Inspection Report 040-08027/07-001 on March 9, 2007. The report indicates that, with a few minor exceptions, cleanup and monitoring activities are proceeding at the Sequoyah Fuels Corporation (SFC) site in Gore, Oklahoma in accordance with the relevant federal laws and regulations.

We have no further comments or suggestions about the report and ongoing activities at the site. Thank you for keeping us informed about clean-up progress and monitoring activities at the SFC site in Gore.

Sincerely,

Kimberly Winton, PhD
Director
