RE: Meeting of the United States Nuclear Regulatory Commission (NRC)  
and Shieldalloy Metallurgical Corporation (SMC)

Dear Mr. Faraz:

This letter is to confirm the schedule of the subject meeting on November 18, 1992 at 1:30 P.M. at the NRC Headquarters facility in Rockville, Maryland. As discussed in our telephone conversation on October 21, 1992, the purpose of this meeting is to discuss the NRC's initial comments to SMC's June 2, 1992 license amendments and renewal request for source material license SMB-743. SMC requests, and expects per our telephone conversation of October 28, 1992, that appropriate levels of your division's management will be participating in this meeting. Although an agenda for this meeting has not yet been finalized, I anticipate providing one to you by November 13, 1992.

If you should have any questions concerning this matter, please contact David R. Smith or myself.

Sincerely,

Craig R. Rieman  
Radiological Safety Manager
