

March 29, 2007

Mr. James Masterlark
PRA Engineering Supervisor
NFPA 805 Project Technical Lead
Nuclear Management Company, LLC
700 First Street
Hudson, Wisconsin 54016

SUBJECT: LETTER OF APPRECIATION

Dear Mr. Masterlark:

I want to express my appreciation for the outstanding support you have provided as a panelist, *Fire Protection: "Successes and Challenges with Improved Industry Performance"*, which helped make the 2007 U.S. Nuclear Regulatory Commission (NRC) Regulatory Information Conference (RIC) a tremendous success. Your presentation on the status of National Fire Protection Association 805 efforts at your facilities was excellent and informed the audience.

The RIC is a dynamic forum for national and international stakeholders to interact and discuss a wide range of issues important to nuclear safety. It provides NRC management, regulated utilities, and other important stakeholders an opportunity to meet and communicate regarding safety initiatives and regulatory trends. There were approximately 2,200 people in attendance at this year's conference.

Again, thanks so much for your enthusiastic participation in the RIC. Your participation made it successful.

Sincerely,

/RA/

Cornelius F. Holden, Director
Division of Risk Assessment
Office of Nuclear Reactor Regulation

cc: S. Weerakkody, NRR/DRA
