(c) License Amendment No. 172 to Facility Operating License No. DPR-36- Maine Yankee Atomic Power Station dated September 30, 2005

Subject: Decommissioning Funding Assurance Status Report - 10 CFR 50.75

Gentlemen:

In reference (b), Maine Yankee informed the USNRC that the Board of Directors of Maine Yankee had decided to permanently cease operations at the Maine Yankee plant and that fuel had been permanently removed from the reactor. In accordance with 10 CFR 50.82(a)(2) the certifications in the letter modified the Maine Yankee license to permanently withdraw Maine Yankee's authority to operate the reactor. In 1998, Maine Yankee commenced decommissioning the power plant that was subsequently released from the Part 50 license in October 2005. In Reference (c), the NRC amended the Maine Yankee license, releasing most of the formerly licensed land for unrestricted use, shrinking the licensed land to the ISFSI only.

In accordance with the requirements of 10 CFR 50.75, and per direction provided by the NRC staff on March 24, 2006, Maine Yankee hereby submits its report on the status of decommissioning funding for the year ending December 31, 2006 for Maine Yankee. Attachment 1 provides the requested information.

If you have any questions please contact me at 860-267-6426 x304.

Very truly yours,

Carla M. Pizzella

# Years to collect	1.83 years
3. The assumptions used regarding escalation of the decommissioning cost estimate, rates of earnings on decommissioning funds, and rates of other factors used in funding projections are:	
Annual escalation rate	3.80% (2003) 2.50% (2004) 3.06% (2005) 3.25% (2006–2023)

- ⁽¹⁾ This accrued market value balance includes amounts in the Decommissioning Trust for all decommissioning costs including site restoration and long-term spent fuel storage as well as decommissioning as defined in 10 CFR 50.75. Since the original power plant has been decommissioned and the license amended, the only remaining decommissioning as defined by the NRC in 10 CFR 50.2 is decontamination and dismantlement of the ISFSI once the fuel is removed.
- ⁽²⁾ Under the Settlement approved by FERC on September 16, 2004, Maine Yankee continued decommissioning collections at a revised rate of \$26.5 million annually.
