Main Office Inspection Next Inspection Date: 3/2012

Field Office _____

Temporary Job Site _____

PROGRAM SCOPE

The licensee is a medium sized engineering firm located in Kirtland, Ohio. They perform density and compaction testing of surfaces within northern Ohio and Pennsylvania. The licensee has sixteen series 3400 Troxler gauges and twenty employees authorized to use the gauges. Licensee does not performed any service or maintenance activities on the gauges. All gauge users have attended a training class by the gauge manufacturer or personnel authorized to conduct such training.

Performance Observations

At the time of the inspection, license was not using a gauge in an area of NRC jurisdiction. Licensee personnel demonstrated for the inspector the procedure used to secure gauges in the field when not in use. The licensee demonstrated its leak test procedures used to insure that gauge leak tests are taken at the required periods. A review of leak test records indicated that no gauges were leaking. Interviews of licensee personnel indicated an adequate level of knowledge of radiation safety.

Independent surveys of the gauge storage area indicated minimal results. Although licensee personnel are badged, readings for the past year were nominally at the minimum level. No violations of requirements were noted.

5. DATE(S) OF INSPECTION

Mar 19, 2007

LICENSEE:

The inspection was an examination of the activities conducted under your license as they relate to radiation safety and to compliance with the Nuclear Regulatory Commission (NRC) rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector. The inspection findings are as follows:

- 1. Based on the inspection findings, no violations were identified.
- 2. Previous violation(s) closed.
- 3. The violation(s), specifically described to you by the inspector as non-cited violations, are not being cited because they were self-identified, non-repetitive, and corrective action was or is being taken, and the remaining criteria in the NRC Enforcement Policy, NUREG-1600, to exercise discretion, were satisfied.

_____ Non-Cited Violation(s) was/were discussed involving the following requirement(s) and Corrective Action(s):

- 4. During this inspection certain of your activities, as described below and/or attached, were in violation of NRC requirements and are being cited. This form is a NOTICE OF VIOLATION, which may be subject to posting in accordance with 10 CFR 19.11.

(Violations and Corrective Actions)

Licensee's Statement of Corrective Actions for Item 4, above.

I hereby state that, within 30 days, the actions described by me to the inspector will be taken to correct the violations identified. This statement of corrective actions is made in accordance with the requirements of 10 CFR 2.201 (corrective steps already taken, corrective steps which will be taken, date when full compliance will be achieved). I understand that no further written response to NRC will be required, unless specifically requested.
