LICENSEE:

The inspection was an examination of the activities conducted under your license as they relate to radiation safety and to compliance with the Nuclear Regulatory Commission (NRC) rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector. The inspection findings are as follows:

1. Based on the inspection findings, no violations were identified.

2. Previous violation(s) closed.

3. The violation(s), specifically described to you by the inspector as non-cited violations, are not being cited because they were self-identified, non-repetitive, and corrective action was or is being taken, and the remaining criteria in the NRC Enforcement Policy, NUREG-1600, to exercise discretion, were satisfied.

_____ Non-Cited Violation(s) was/were discussed involving the following requirement(s) and Corrective Action(s):

4. During this inspection certain of your activities, as described below and/or attached, were in violation of NRC requirements and are being cited. This form is a NOTICE OF VIOLATION, which may be subject to posting in accordance with 10 CFR 19.11.

(Violations and Corrective Actions)

Licensee's Statement of Corrective Actions for Item 4, above.

I hereby state that, within 30 days, the actions described by me to the inspector will be taken to correct the violations identified. This statement of corrective actions is made in accordance with the requirements of 10 CFR 2.201 (corrective steps already taken, corrective steps which will be taken, date when full compliance will be achieved). I understand that no further written response to NRC will be required, unless specifically requested.

PROGRAM SCOPE

The licensee is engaged in research involving uranium-235, uranium-234, and plutonium-238 and 239. These materials are used in the fabrication of reactor fuel. This distribution license is for instrumentation sources used to detect contaminants associated with the fuel. This licensee is a wholly owned subsidiary of the General Electric Corp located in Edison Park in the City of Twinsburg, Ohio.

Performance Observations

The inspector toured the licensee facilities and conducted a physical inventory of the subject material. All material was accounted for and no discrepancies in the inventory were observed. The inspector reviewed the distribution log of sources delivered to customers. Appropriate records of distribution are being kept. The inspector conducted interviews of personnel working in the laboratory spaces and determined that each had an adequate level of knowledge in radiation safety.

No violations of NRC requirements were identified.
