**Subject:** Acceptance Review of Lead Cascade's Classified Computer Networks

Dear Mr. Miner:

I am responding to your letters dated March 7, 2007 (AET 07-0006) and March 16, 2007 (AET 07-0014), in which you transmitted information regarding the proposed addition of classified computer networks to the American Centrifuge Lead Cascade Facility. As you noted in your letters, this change requires review of three new security plans and a license amendment request to revise Chapter 2 of the Security Program.

We have completed our review of the information you provided and find the information to be acceptable for detailed review by NRC staff and the designated approving authority. During this review, we will notify you if any additional information, or clarification of existing information, is needed. Our review of the classified computer networks has been assigned TAC No. L32374. Please reference this TAC number in all correspondence related to this action.

Based on our preliminary review and projection of current review schedules, we anticipate completing our review before October 2007. This time frame could change depending on the findings of the technical review, urgent assignments, or other factors. We will promptly communicate any significant changes to this schedule. I can be reached at (301) 415-3194 or by e-mail at [jrd2@nrc.gov](mailto:jrd2@nrc.gov).

Sincerely,

James R. Downs, P.E.  
Lead Cascade Project Manager
