Subject: 2007 Emergency Response Exercise, Revision to LTR-RAC-05-10

Dear Mr. Henson:

In a letter dated March 14, 2007, Westinghouse Electric Company (WEC) provided the date and time for our planned 2007 biennial emergency exercise. At that time, we were unaware of the NRC's desire to actively participate in the exercise in a capacity beyond that of observers or inspectors. Following discussions with your staff the week of March 26 and upon reviewing the planned scenario, we would like to cancel the currently scheduled exercise. It is our intention to revise the scenario to better integrate NRC support into our response and to reschedule. Following redevelopment of the scenario and determination of an appropriate date, we will provide the required notifications to you.

I may be contacted by phone at 803-647-3174.

Sincerely,

A handwritten signature in black ink that reads 'Marc Rosser'.
