SUSQUEHANNA STEAM ELECTRIC STATION, UNITS 1 AND 2, LICENSE
RENEWAL APPLICATION

Dear Mr. McKinney:

Enclosed is a revised schedule for review of the Susquehanna Steam Electric Station, Units 1 and 2, license renewal application. This schedule has been revised to reflect the potential impacts that would need to be considered in the license renewal (LR) review as a result of an ongoing review of an extended power uprate application submitted by PPL Susquehanna, LLC, in October 11, 2006, as supplemented on October 25, November 21, and December 4, 2006. The U.S. Nuclear Regulatory Commission staff will update and establish the remaining milestones in the LR review schedule as we previously informed you in a letter dated August 2, 2006. This letter can be accessed in the Agency Documents Access and Management System, under (Accession No. ML062140549). If you have any questions on the revised schedule, please contact me by telephone at 301-415-1594 or via e-mail at YKS@nrc.gov.

/RA/
