March 29, 2007

Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Sir:

Subject: Docket Number 50-184

The Department of Energy has no qualified LEU fuel for the NIST reactor and funds for the conversion of the NIST reactor to LEU will not be available at any time in the foreseeable future. Accordingly, a schedule for conversion of the NBSR cannot be submitted at this time.

Sincerely,

Patrick Gallagher
Director, NIST Center for Neutron Research
