On March 22, 2007, at 3:00 p.m., an Annual Assessment Meeting was conducted at the Lenan F. The NRC requested the meeting with Dominion management to discuss the NRC's assessment of the safety performance of the Millstone Nuclear Power Plant for calendar year 2006. At 6:00 p.m. the same day a joint meeting with NEAC was conducted at the Waterford Town Hall, Waterford, CT, to discuss the implementation of the Reactor Oversight Process and to answer questions regarding the Millstone Nuclear Power Plant performance for calendar year 2006.

The NRC presented and discussed its assessment of the safety performance of Millstone Units 2 and 3 for the period between January 1 through December 31, 2006. The NRC presentations included a discussion of the Reactor Oversight Process, general background on both plants, 2006 performance assessment results, and an overview of calendar year 2007 planned inspections.
