Subject: More information on amendment submitted

(NOTE: This will be used as the Documents Title in ADAMS)

Summary: A closeout survey dated 3/30/2007 was sent in but referenced a State of new Jersey license number. I called the licensee to inquire if the amendment was mistakenly sent to us and should actually go to the state of new jersey. The licensee stated that the information submitted mistakenly referenced the NJ license but in fact was intended for the NRC. It was a notification that was matched with another amendment dated 2/8/07 with the above control number. The licensee explained that the hot lab was moved to a temporary location in order to remodel the permanent hot lab and the amendment dated 2/8/07 was a closeout of the permanent location. The amendment dated March 30, 2007 was closeout of the temporary location for the material to moved back to the original location.
