Patricia,

Thank you so much for all you help! After discussing the FDA letter regarding shelf life extension for current stockpiles of KI with our Director, Kirk Whatley, Alabama has decided to change their request to extend and then replenish the KI. We would like to extend the shelf life for the 130mg tablets for 2 years (new expiration date of 3/2009) and the 65mg tablets for 3 years (new expiration date of 4/2010). At the end of the extension period, NRC will replenish the distributed Potassium Iodide tablets in Alabama. If you have any questions or need more information, please contact me at 334.206-5412 or by email, tappleyard@adph.state.al.us.

Thank you again!

Tonya Appleyard
Director of Emergency Planning Branch
Office of Radiation Control
Alabama Department of Public Health

Based on our discussion yesterday, I was under the impression that you were thinking about extending KI stockpiles.. in Jan AL sent us an order for KI replenishment. We are preparing to place the order. so if you want to extend, that is fine, we can put the request in to the 2009 order queue or if youwant it now, that is fine also.

Thanks
 Trish
